

Project Requirement Document (PRD)

Task Manager & Calendar Planner App

1. Project Overview

Field	Details
Project Name	Taskly (Working Title)
Version	1.0
Platform	Android, iOS (Cross-platform)
Target Audience	Students, Professionals, General Users
Core Purpose	Provide a simple, intuitive task manager with an integrated monthly calendar overview to help users plan their month easily.

2. Objectives

- Deliver a fast, clean, and easy-to-use task manager for students and daily planning.
 - Provide a reliable **Calendar Overview** feature that allows users to view and plan all their tasks for the month easily.
 - Ensure a smooth onboarding experience through **walkthrough screens** for first-time users.
 - Maintain a visually appealing **grey and white color theme** throughout the app to ensure a distraction-free experience.
-

3. User Personas

Persona	Description
Student	Needs to keep track of assignments, projects, and exam dates using a visual calendar view.

Persona	Description
Professional	Requires a streamlined tool for managing daily to-do lists and scheduling appointments.
General User	Everyday user looking for a simple, ad-free, and reliable planner to organize their month.

4. Functional Requirements

4.1 Onboarding & UI Module

ID	Feature	Description
FR-01	Walkthrough Screens	Display 2-3 simple, swiping screens on first launch explaining the calendar view and task creation.
FR-02	Home Dashboard	The default view is a Month Calendar where users can see a summary of their tasks.
FR-03	Simple Navigation	Bottom navigation bar with tabs: "Calendar", "My Tasks", and "Profile".

4.2 Calendar & Planning Module

ID	Feature	Description
FR-04	Calendar Overview	Users can see their tasks plotted on a monthly calendar grid. Dates with tasks will have visual indicators.
FR-05	Month-to-Month Plan	Ability to swipe or navigate to view tasks for different months to plan ahead.
FR-06	Tap-to-View	Tapping on a specific day reveals a list of all tasks scheduled for that day.

4.3 Task Management Module

ID	Feature	Description
FR-07	Create Task	Users can add a task title, date, and optional notes.

ID	Feature	Description
FR-08	AI Smart Input	Use AI to parse natural language (e.g., "Meeting next Monday") to automatically set the date and time.
FR-09	Task Status	Users can mark tasks as "To Do", "In Progress", or "Completed".

4.4 Non-Functional Requirements

ID	Requirement	Description
NFR-01	Aesthetic Theme	The app must strictly follow a Grey and White color palette (Clean UI).
NFR-02	Performance	App load time should be under 2 seconds.
NFR-03	Responsiveness	UI elements must adapt to different screen sizes (Mobile & Tablet).

11. Future Enhancements (Roadmap)

- **Dark Mode** – Let users switch to a lighter grey scale theme.
- **Widgets** – Calendar and Task widgets for the phone home screen.
- **AI Reminders** – Smart notifications based on location or time.
- **Collaboration** – Share tasks or to-do lists with family members or classmates.
- **Cloud Sync** – Save user data securely to the cloud to prevent loss on device changes.

12. Success Metrics

Metric	Target
Walkthrough Completion Rate	> 70%
User Retention (Day 7)	> 40%
App Store Rating	> 4.5 stars
Crash-free Sessions	> 99%
Active Users (Month 1)	> 1,000

Document Status: Draft v1.0
